

JOURNEY TO RELAXATION.™

FANTASY SPAS®

# DON'T WAIT. STEP INTO YOUR FANTASY.

We believe in the power of warm water to comfort, relieve, and rejuvenate. That's why we focus our efforts on a clear mission: to make hot tub ownership an affordable reality.

It all starts with making quality hot tubs that are easy to own and simple to install. When you own a Fantasy® spa, you join a community of happy hot tubbers who have made their fantasy a reality.

## AFFORDABLE

Our hot tubs are rotationally molded, a manufacturing process that involves less labor and material than an acrylic spa, resulting in a durable, unibody hot tub shell designed to look great and perform great for years to come.

## PORTABLE

High on quality, low on weight, and designed to fit almost anywhere, Fantasy Spas can easily be moved around your backyard or across town.

## PLUG-N-PLAY

Fantasy Spas® plug in anywhere! No need for additional plumbing or special wiring. Simply fill the hot tub with water, plug it in to a standard 110v outlet, and enjoy!

## ENERGY EFFICIENT

With an internal thermostat, full foam insulation, and locking thermal cover, Fantasy Spas keep the water hot and ready for your next soak session. Plus, our spas conform to the strict guidelines set forth by the California Energy Commission (CEC), so you can rest easy knowing your hot tub is operating efficiently.

## HOT TUBBING IS AS EASY AS 1-2-3!

1. Fill it up (with your garden hose)
2. Plug it in (to a standard 110v outlet)
3. Enjoy!

# FANTASY SPAS®

## PICTURE YOURSELF IN A FANTASY SPA!

Free your spirit with mini-vacations right outside your back door.

Turn your backyard into an outdoor retreat, nestled amongst the pines in the crisp mountain air. Or an all-inclusive beach vacation. Or a faraway city. It's your Fantasy, you choose.

Indulge in all the benefits of hydrotherapy when you make this dream a reality with your own Fantasy Spas hot tub.

# WATER CARE

## CLEAR WATER MADE SIMPLE

Spend more time soaking in crystal clear water with proper water maintenance made simple.

The Ozone System mixes concentrated ozone bubbles into the water to neutralize contaminants such as lotions, detergents, and organic waste.

Replacement filters are essential to maintaining clean water and ensuring proper performance of your hot tub.
