

Salt & Swim® ABG

ABOVE-GROUND POOL SALT CHLORINATOR

SANITIZATION

Convenient and efficient salt chlorination for above-ground pools

Hayward's Salt & Swim® ABG automatically turns salt into chlorine – conveniently and easily sanitizing above-ground pools while reducing chlorine costs by 50% or more when compared with conventional chlorine. No more itchy skin, red eyes and harsh chlorine fumes typically associated with conventional chlorination. Replace it all with astounding pool water that is clean, clear and luxuriously soft.

Save your customers time and money with sanitization that's convenient and efficient.

Owners of above-ground pools get a serious break, thanks to Salt & Swim® ABG automatic sanitization. No more lugging heavy buckets and jugs of chlorine. No more hassle mixing and measuring and managing harsh chlorine. Just the simple pleasure of a more comfortable swimming experience for the whole family – without all the red eyes and dry skin. For above-ground pool owners, the Salt & Swim ABG difference is as clear as their pools.

FEATURES AND BENEFITS

Big Savings

Reduces chlorine costs by 50% or more over conventional chlorine.

Huge Convenience

Automatic chlorination replaces liquid chlorine with one mighty cell.

Kid-Friendly, Mom-Approved

Families love salt chlorination for creating natural-feeling water that's comfortable for the whole family.

Reliable Safety

Protects pools from nuisance algae.

Easy Installation

Attaches directly to pool's return line in minutes.

Ready-to-Go
