

JOURNEY TO RELAXATION.™

FANTASY SPAS®

DON'T WAIT. STEP INTO YOUR FANTASY.

We believe in the power of warm water to comfort, relieve, and rejuvenate. That's why we focus our efforts on a clear mission: to make hot tub ownership affordable for anyone looking to introduce hydrotherapy into their life.

It all starts with making quality hot tubs that are easy to own and simple to install. When you own a Fantasy® spa, you join a community of happy hot tubbers who have made their fantasy a reality.

AFFORDABLE

Our hot tubs are rotationally molded, a manufacturing process that involves less labor and material than an acrylic spa, resulting in a durable, unibody hot tub shell designed to look great and last for years to come.

PORTABLE

High on quality, low on weight, and designed to fit almost anywhere, our spas can easily be moved around your backyard or across town.

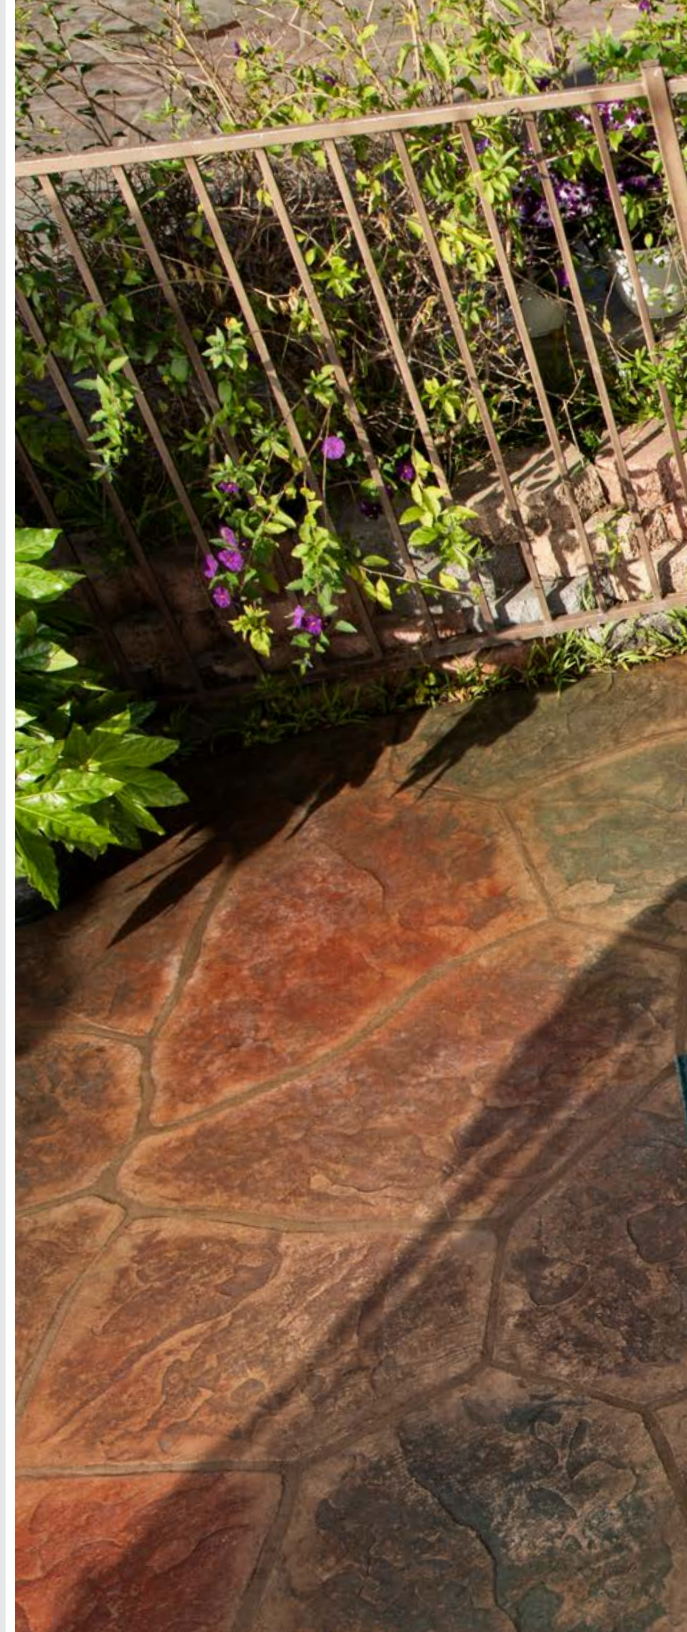

PLUG-N-PLAY

No need for additional plumbing or special wiring, Fantasy Spas plug in anywhere! Simply fill the hot tub with water, plug it in to a standard 110v outlet, and enjoy!

ENERGY EFFICIENT

With an internal heater, full foam insulation, and locking thermal cover, our hot tubs keep the water hot and ready for your next soak session. They also conform to the strict guidelines set forth by the California Energy Commission (CEC), so you can rest easy knowing your hot tub is operating efficiently.

HOT TUBBING IS AS EASY AS 1-2-3!

1. Fill it up (with your garden hose)
2. Plug it in (to a standard 110v outlet)
3. Enjoy!

WATER CARE

CLEAR WATER MADE SIMPLE

Spend more time soaking in crystal clear water with proper water maintenance.

The Ozone System mixes concentrated ozone bubbles into the water to neutralize contaminants such as lotions, detergents, and organic waste.

Filters are essential to maintaining clean water and ensuring proper performance of your hot tub. Change out your filters every 3 months* for maximum hot tub performance.

*Varies based on usage.

WI-FI KIT

EVERYTHING YOU NEED AT YOUR FINGERTIPS

The Gecko in.Touch 2 Wi-Fi Kit makes it easy for you to control your spa anywhere at any time, all from your phone or tablet. With the touch of a button, you can set the ideal water temperature, turn jets and lights on or off, monitor your water care, and track energy savings.

It's the perfect way to make sure your spa is ready for you anytime you want to soak.

The Wi-Fi kit is compatible with iOS, Android, and voice-assisted devices like Amazon Alexa and Google Home.
