# The Weston's BACKYARD IS MADE FOR HOSTING

The layout of the Weston backyard is both functional and inviting. We wanted to work with the Westons to make the most of their backyard space.

We transformed the original rectangular design into a spacious square L-shaped inground pool, positioned in the back right corner to create room for a covered patio and expanded lounge space. Finished with our striking Blue Opal full-print vinyl liner, the pool reflects a rich, vibrant blue throughout the day that truly stands apart.

A covered patio was added to keep the Weston family enjoying the outdoors rain or shine, while the detailed stone patio adds a sleek, textured finish to this entertainment-focused backyard. The Weston backyard is the perfect place to celebrate all summer long—especially on Canada Day!

# FROM START TO **Splash**

# CHOOSING PATIO FURNITURE FOR YOUR RETREAT

**Make Sure You Get The Set You Want!  
Order Early & We'll Deliver It When  
Your Pool Is Ready!**

When designing your ideal outdoor retreat we like to start by asking what your ultimate vision is. Do you like to eat meals outside? Do you entertain often? If so, how much seating would be reasonable to accommodate your guests? These questions help us paint a picture of your needs to ensure you get the set or piece you need to complete your space.

Once we know your vision things get a lot easier! We offer a wide variety of sets that suit almost every style. The next thing to consider is the size of the space and how much room you want surrounding the set. Choose from sets that include the various pieces you'll need to complete the space, or consider a modular sectional that allows you to customize your space and achieve the perfect fit.

If you're looking for deep seating options other than sectionals, we offer bistro sets, sets for smaller spaces, or even picking your favourite item from a piece in one of our collections.

Considering a dining option? Our wide variety of collections allow you to find the set you want, or mix and match between various collections as all of our dining sets are priced separately!

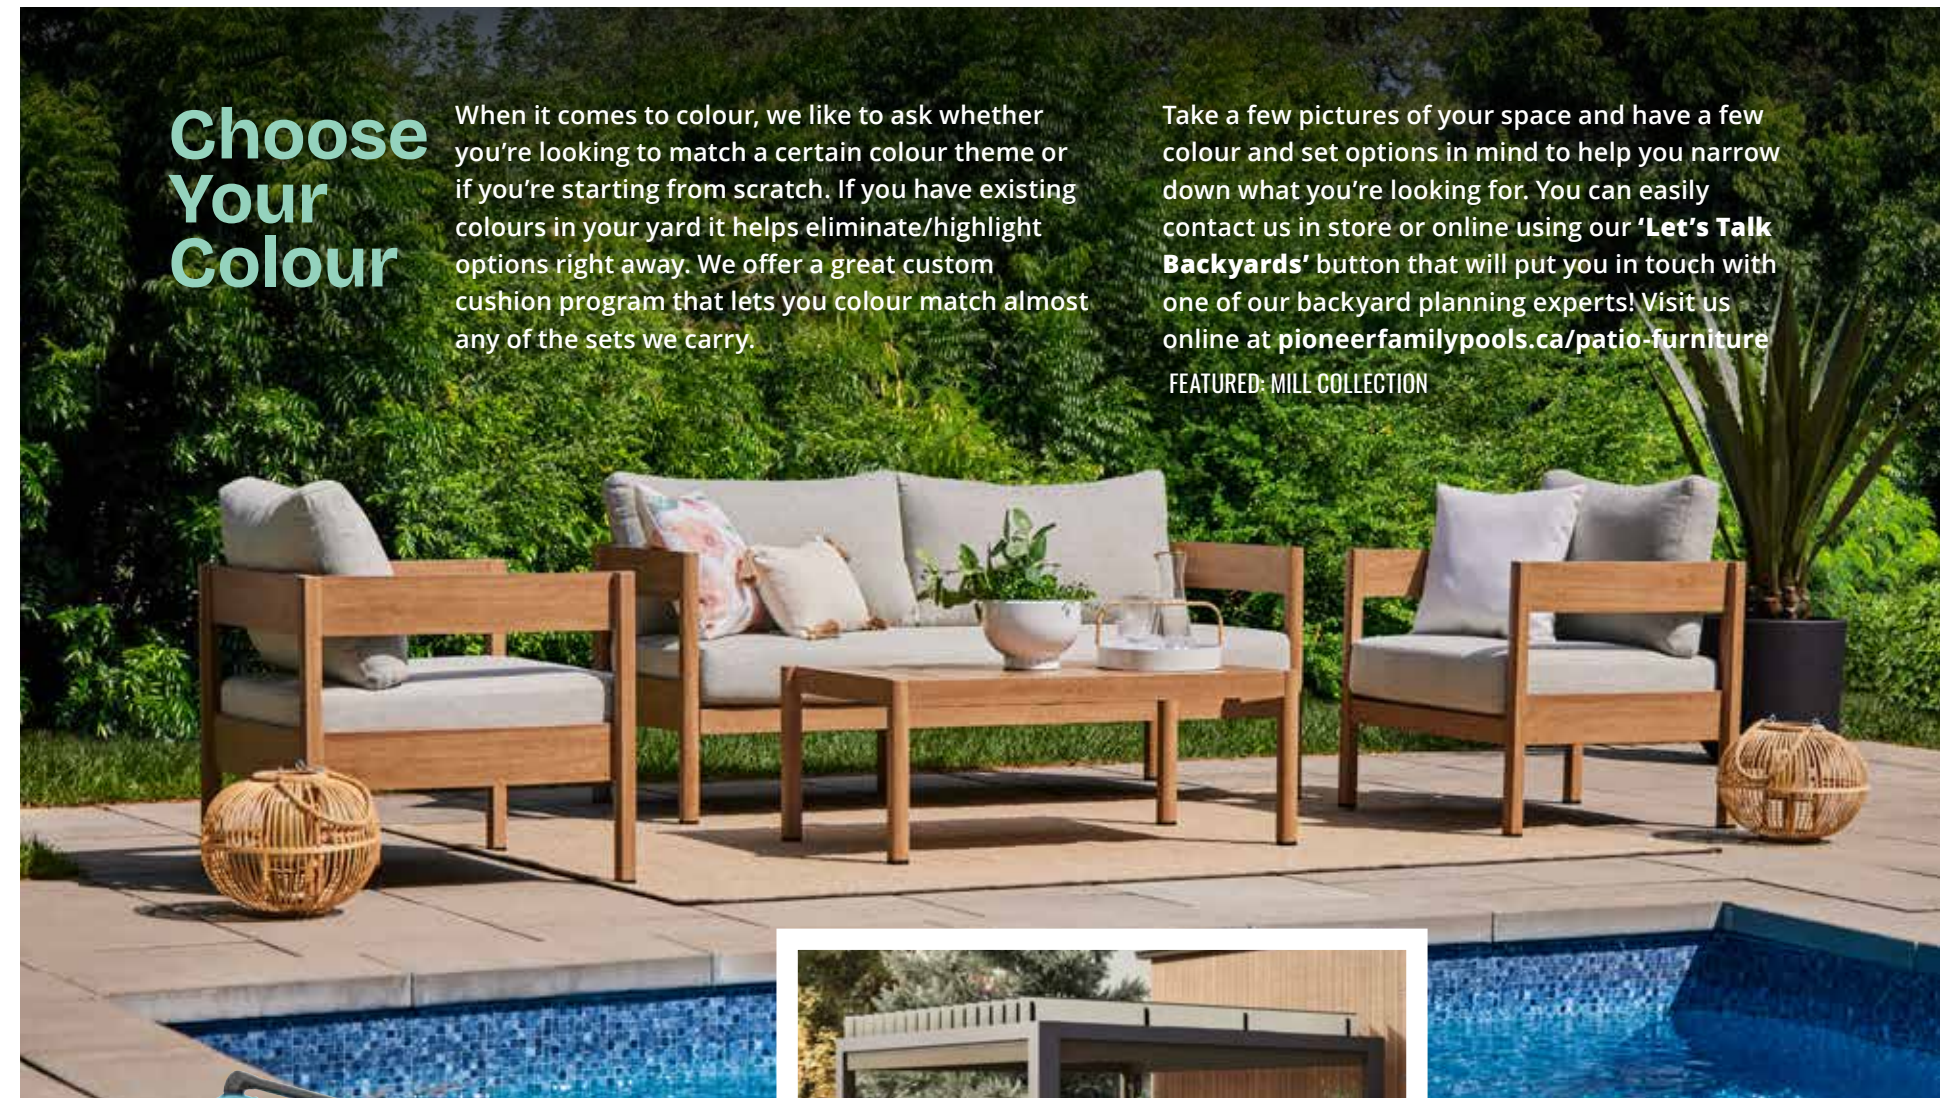

## Choose Your Colour

When it comes to colour, we like to ask whether you're looking to match a certain colour theme or if you're starting from scratch. If you have existing colours in your yard it helps eliminate/highlight options right away. We offer a great custom cushion program that lets you colour match almost any of the sets we carry.

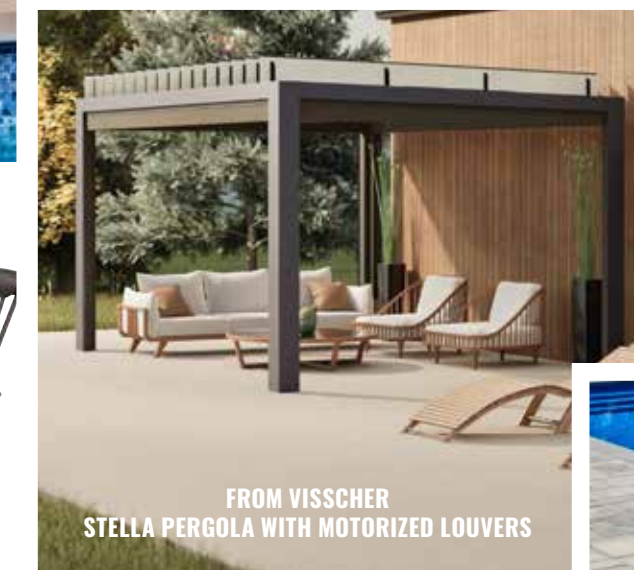

Take a few pictures of your space and have a few colour and set options in mind to help you narrow down what you're looking for.
